1. The following is an examiner's statement of reasons for allowance: The instant claims appear to be identical to those allowed in parent application 10/174,039 (now abandoned) with the exception of the addition of the phrase "less than 0.04" in the instant claims rather than "0.04" in the parent claims. This change broadens the claimed component slightly over those allowed in the parent application, but does not change the fact that the instant claims are allowable over the prior art. Specifically, component a) as claimed is known in the art (see EP 372 561) and component b) is an obvious polymer in view of that known in the prior art (see Stuart which contains a monol polyether component, but does not specify a degree of unsaturation). However there is no teaching or suggestion to combine these polymers to arrive at the moisture curable composition as claimed. Roesler et al. '902 and 325 are cited as being of general interest, as teaching moisture curable compositions but failing to teach or suggest the particular blend of a) and b) as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
